EXPERIENCES & SERVICES

# Wild Chile, *privately* yours

Private, sustainable luxury experiences: helicopter tours and private planes, vineyards, sailing, mountain wellness and journeys to Chile's far ends.

ABOUT US

# BioTourist *Live Nature*

Since 2012 we have been crafting private experiences in Chile's wild places. Helicopters over the Andes, sailboats on the Pacific, boutique wineries and remote lodges, all shaped by one idea: *conscious luxury*.

We are a boutique operator of sustainable luxury travel, based in Santiago and Viña del Mar and operating across Chile. We work with travellers, couples, families, companies, hotels and agencies looking for more than a tour: privacy, time, and places few people ever reach.

01

### Private and bespoke

Every experience is designed from scratch around your group, your dates and your pace.

02

### By air, sea and land

Helicopter, private plane, sailboat and chauffeured executive car, woven into a single journey.

03

### Conscious luxury

Wild nature, small groups and deep respect for every place we visit.
